Directions for application:

Write an essay stating your personal and professional goals in five years. Address the importance of extracurricular activities and athletics in your personal life and in the community. Identify your specific leadership/service and athletic participation. Attach a list of activities, in and out of school, with your essay.

General notes for writing applications:

- Include your name on every page
- Spell out organizations and other acronyms the first time they are used. Initials are fine after they've been explained.
- It is most helpful if you provide some detail and context for your activities. If you have had leadership positions or have spent significant time doing something, be sure to let us know.
- There is no page limit but an essay of several paragraphs, about a page long, plus attachments of activities is about right.
