

HUMBOLDT CUBS

ATHLETIC HANDBOOK

PURPOSE OF HANDBOOK

The purpose of this handbook is to acquaint coaches, sponsors and athletes of USD 258 with major activity policies and procedures. This handbook will be a ready reference for information about administrative rules and regulations related to athletics. Furthermore, it provides a framework within the Athletic department for consistency and efficiency. The handbook is not meant to cover every set of circumstances but to be a broad outline for all to follow. Students must abide by all other rules outlined in the adopted student handbook for Humboldt Middle School/High School.

The handbook will be updated annually. Interpretation of the handbook will be the responsibility of the athletic director and principal. Each coach is accountable for the contents of the handbook. The word coach will be used in reference to all persons who work with USD 258 students in the areas sanctioned by the Kansas State High School Activities Association. This handbook can be accessed through the USD 258 district website.

COACHES INFORMATION

GENERAL RESPONSIBILITIES FOR COACHES

All coaches are regarded as teachers and receive payment for their services in accordance with a schedule which takes into account the duties and responsibilities of different coaching assignments. As a teacher, coaches recognize the difference between coaching a team and managing a team. Coaching includes management but emphasis is on teaching and developing players rather than discovering and managing them.

Athletic coaches enjoy a very favorable position in the eyes of students and patrons. The coach must exemplify that which is best at all times in his/her conduct and emotional control, and he/she must not seek personal recognition.

At times during an athletic contest, all eyes are focused on the coach to see how he/she reacts to a play or a decision. Immediately, reactions of the students and other spectators reflect his/her actions. Under no circumstances should a coach display uncontrolled emotion. The only reason a coach should enter the court or playing field while a contest is in progress is to assist an injured player.

The principal and staff (including the coach) are responsible for the conduct of the students who are spectators. The principal delegates the responsibility for the players' conduct to the coach.

The principal and staff should conduct an on-going public relations program that emphasizes the purpose and values of the athletic program. Attention should also be given to the matter of parental acceptance of the coaches' judgment in the selection, training and strategy of the team.

Coaches should exercise care and judgment in the language they use with athletes and avoid ridiculing an athlete in public in an audible or visible way.

It is our responsibility to see that high standards are maintained throughout the entire athletic program. The coach's foremost duty is to the student athlete who comes out for the team.

Whether a student is on the first or last team of the squad, he/she is as important in the program as the "star" member. The educational development of the student athlete must be the first and foremost consideration of the entire athletic program.

If the athletic program is to be considered an integral part of our school curriculum, school does not end for the athlete at the conclusion of the academic schedule. The school day will end for those participating in athletics at the close of practice session, game or at the time of dismissal by his/her coach.

It is the full responsibility of the coaches of an activity to educate themselves on the policies and rules that govern the activity they are coaching.

1. Event Scheduling

All sports will be scheduled by the athletic director with input from head coaches when circumstances allow.

2. Forms

Coaches will make sure all forms are in and names are on the eligibility list prior to the student-athlete's first practice. Forms needed to be turned in by each student include, but are not limited to:

7. Communication with Athletes/Parents/Guardians

a. Communication is a cornerstone to relationships. This is especially true in the coach-athlete relationship. Within this relationship, difficult issues must be dealt with at times, including discipline, player performance and player dissatisfaction. Proper communication results in the positive resolution of such issues, stronger coach-player relations, and other benefits such as the student learning how to solve problems.

b. Parents also have a relationship with their child's coach, and communication is equally important to this relationship. Parents may feel the need to step in on their child's behalf. Whatever the motive, proper communication will enhance coach-parent and coach-player relations.

c. The following is a guide for coaches, parents and student-athletes. This guide provides a chain of communication that will maintain and build positive relationships.

Step One: Coach-Athlete Session

If a player or his/her parent has any issue or problem with the sport experience, the student athlete is expected to address the coach. Students are also encouraged to talk with a coach about any issue in their personal or academic life. The district's expectations of coaches include open communication and positive relations.

Step Two: Coach-Parent-Athlete Session

If an issue has not been resolved in Step One, the next step in the communication process is a meeting with parents. The guideline here is to make an appointment at the coach's discretion. If the issue is emotional, the appointment should be scheduled at a later time so parties are calm and problem-solving can occur. Also, the parent or player should define the purpose of the session when the appointment is made. In this step, there may be rare cases when it may be best if the athlete does not participate in the session. If either the parent or coach feels this is the case, this decision should be discussed when making the appointment and purpose of the meeting.

Step Three: Administrator-Coach-Parent-Athlete Session

If an issue is not resolved in Step Two, the next step may be initiated by any party. Using the same process as above, an appointment is set and all parties define the purpose of the meeting.

d. In order to maintain a professional and appropriate relationship with students, personal social media communication (including, but not limited to, Facebook, Twitter, Snap Chat, and Instagram) between coaches/sponsors and USD 258 students is discouraged. If an emergency situation requires such communication, the coach/sponsor should notify the athletic director as soon as possible.

ATHLETE INFORMATION

ATHLETIC/ACTIVITY RULES

Humboldt High School and Humboldt Middle School athletics and activities are voluntary activities. Participation is a privilege and not a right. Athletes and activity participants are viewed as heroes and examples by younger children and adults of the community; their standards of conduct are necessarily stricter than those required of students involved in classroom activities. The USD 258 Board of Education has authorized administrators, sponsors, and coaches to use and enforce the following guidelines for athletes and activity participants at Humboldt:

EXTRA CURRICULAR ACTIVITIES PARTICIPATION REQUIREMENTS

Students who participate in any school activity shall meet the following requirements:

- All applicable KSHSAA regulations
 - *Students participating in athletics and cheerleading must have a physical and concussion form on file before participating.
- Academic eligibility requirements and other requirements established by the administration.
- Students must attend classes for 4 periods of the school day.
 - *Students will not be excused during the school day to attend school sponsored activities unless the student is involved in the activity or the entire school is dismissed to attend the activity.

HHS/HMS INELIGIBLE LIST

On the third Monday of the semester, or any Monday thereafter, the office will run a PowerSchool F list. Any student with an “F”, an incomplete that causes the grade to be an “F” or has more than 30 minutes make-up time will be informed by the office and parents will be informed by email/mail. If this is the first time the student has been on the list, the student and parents will be informed that the student has a one week “grace period” to improve the grade or make-up the time. Any Monday thereafter that the student is failing one or more classes or the time has not been made up, the student will be informed by the office and parents will be informed by email/mail that the student has been placed on the Ineligible List. Each student will only be given one “grace period” per school year regardless of when a 2nd occurrence happens.

Any student on the Ineligible List will not be allowed to participate in or attend any school activity while his/her name is on the list. This will include games, contests, practice, non-credit field trips, rated performances, on-campus college visits, Prom, etc. The student’s name will remain on the List until he/she is no longer failing one or more classes or has made up the time. The Office will be notified as soon as the student’s grade improves to a “D” or an incomplete is made up. The student’s name will be removed from the list immediately and the student will regain eligibility.
